Why, What and How of Compliance Machine

Why – what business challenge are we solving ?

- Rising cybersecurity and data privacy threats
- *Global push for strict regulations for cyber security and data privacy*
- *Financial plenty and loss of reputation in case of non- compliance (Cost of Compliance)*

Compliance Machine aims to REDUCE this cost of compliance for Public and Private Sector.

Why, What and How of Compliance Machine

What – What is our solution cloud-based Compliance Machine?

- *A SaaS (software as services) secure cloud-based solution to automate and streamline the entire compliance processes.*
- *Compliance Machine supports both regional (PTA's CTDISRGDPR, SBP Cloud & Security Regulations, PECA and many more) as well as global Cyber security and data privacy compliance mandates like HIPAA, SOC2, ISO 27001, NIST, CMMC and more.*

Experience the future of compliance management with **Compliance Machine**.
Schedule a demo today and take the first step toward seamless cybersecurity and privacy compliance.
